

Date of Original Recommendation: 18<sup>th</sup> September 2007

Date Re-Reviewed: 21<sup>st</sup> October 2014

### Yohimbine tablets

**The New Therapies Subgroup discussed the above drug. The recommendation of this subgroup is as follows:\***

The New Therapies Subgroup of the GMMMG considered the therapeutic use of Yohimbine for the treatment of erectile dysfunction.

**The group does not recommend the use of Yohimbine for the treatment of erectile dysfunction. The group was concerned about:**

- **The lack of robust and comparative efficacy data**
- **The lack of robust safety data**
- **The absence of a licensed source of Yohimbine**
- **The potential increased cost of treatment compared to established licensed treatments**

According to set criteria Yohimbine was deemed to be a low priority for funding

**Review date: September 2019**
