

**September 2018**

Just one line to pick out that being this month's largest riser:

Macrogol 3350 oral powder 8.5g sachets sugar free (28) have gone up 7-fold in price to £29.85

Most CCGs have some items of this each month but with only a couple of exceptions, these are single figures or very low double figures. I had to do some searching as to what this was, and it's NOT Movicol!

**October 2018**

PSNC's estimate is an overall reduction in Category M prices this quarter, averaging out at a reduction of 8p per item in average item value: <https://psnc.org.uk/our-news/october-2018-category-m-prices/>

Some of the more significant price changes are highlighted e.g. reductions for levetiracetam and pregabalin (biased towards the lower strengths though) and increases for lamotrigine and sumatriptan. Atorvastatin, citalopram and quetiapine are also down. In the opposite direction, oxybutinin trebles in price.

A few new entries into Category M will bring good news for some: ezetimibe with an 87% price drop and ivabradine with an almost similar reduction.

Price concessions were eventually granted for 47 Category M lines last month, via 3 separate communications.
