

Good Practice Guidance on Rebate Schemes

Where Pharmaceutical, Nutrition or Device companies submit their Primary Care Rebate Schemes (PCRS) for consideration using the forms below then they will be taken through the Greater Manchester Medicines Management Group's (GMMM) 'Ethical Framework for Considering Rebate Applications from Pharmaceutical, Nutrition and Device Companies' by the Shared Service Medicines Optimisation Team. The outcome of this process will be notified to GMMM and Greater Manchester (GM) Clinical Commissioning Groups (CCG) and, where they meet the requirements of the ethical framework, information about the PCRS and contact details for the relevant company representative will be provided. Companies will be notified of the outcome as well. It will then be the responsibility of individual CCGs to consider each PCRS and approach companies directly if they wish to take part.

Companies may if they wish approach GM CCGs directly to present their PCRSs for consideration. For further information please contact Greater Manchester Shared Services team on 0161 212 5680 or GMMM@nhs.net
